

Traffic Patterns Morning and Evening

Beginning Monday the 19th of October all roads on Latexo ISD school grounds will become **one way at all times**. All traffic will need to follow this traffic pattern. We hope this will aid in traffic flows in the mornings

** Parents will need to wait behind the buses until they are loaded or unloaded by the high School students and leave the traffic lanes to exit onto FM 2663. We will do our best to have someone directing traffic on FM 2663 at the designated exit point.

*** once your car clears the gate indicated please form two lines of traffic with the right line in a right turn only situation and the left line in a left turn only situation.
