Dear parent/guardian,

Latexo ISD has a tuition reimbursement program to encourage parents and their students who may be interested in taking Angelina College classes in high school. The parent pays their students' Angelina tuition at the start of the semester, and the parent is eligible to get 50% of the tuition cost reimbursed by the district. The reimbursement is only for classes that Latexo ISD has approved and offers its High School students. The refund would occur every semester the student takes Angelina classes through Latexo, and cover every class that they take.

In making a financial investment in its college bound students, the district has requirements that the student and parents must agree to fulfill in order to ensure student success and that the districts funds are invested wisely. The requirements to be agreed to in order to be eligible are:

1. The Angelina class must be approved by and taken through Latexo ISD.
2. The student will not make a “D” or an “F,” as defined by Angelina College, in the class.
3. The student will not drop or be removed from the class by the instructor or facilitator.
4. The student will meet a set of behavioral and academic expectations:
 - *the student will have a limited number of tardies and absences, to be determined by the Angelina instructor and Latexo facilitator.
 - *the student will bring appropriate materials and take an appropriate amount of notes during class and submit those to the instructor or facilitator for review if requested.
 - *students will not talk during the instructor’s lecture, unless there is a class discussion.
 - *computers and will only be used to take notes, or any other activities as directed by the Angelina instructor; there will be no aimless internet surfing during class.
 - *classroom behavior will exceed the standards set by the LISD code of conduct.

The above requirements are not meant to be punitive, but simply to ensure the success of our college students and the investment that Latexo ISD is making in those students. Failure to adequately follow the requirements can mean dismissal from the class and loss of enrollment in the reimbursement program. If you agree to these requirements, please sign and date below, and return to Mr. Cravens. Failure to sign and return will signify that you do not wish to enroll in the program and make you ineligible for any reimbursement.
